강의소개 및 목표 Course Objectives & Summary	<p>This course focuses on fun and various activities to get students to comprehend simple grammar ideas. The Units combine grammar, listening, and speaking, with lots of practice opportunities. We will cover three units of the book in 4 weeks of class, with a fairly intensive pace, using as much of the book as possible. There may be some activities from outside the book that will replace ideas from the book. The overall plan for the class is to use the innovative materials from the book to motivate the students, while using outside materials to add some content for serious practice. The details of the class plan may change due to student level, at the teacher's discretion. Students should bring the book, a pencil, and a positive attitude to each class.</p>
