The major goal of the course is for students to improve their confidence in English conversation by improving listening, pronunciation, and vocabulary. Students should also learn accurate and appropriate grammar and expressions to express themselves in a wide range of situations about a wide range of topics. Each lesson will consist of a different topic, review of basic vocabulary and a model conversation. Conversation function targets (i.e. talking about family and personality, promises, wishes, suggestions, etc.), and a listening portion are also available. Classwork pages are listed below, but each lesson may include supplementary materials and extra conversation questions if time allows. The pace and content covered in the course may also be adjusted based on students' needs, interests, and preferences. Students do not need to buy the workbook for the class, but it may be useful for students who want to use the workbook to study independently. It will not be used in the class.
